

Appointment Manage Hub - Design Document

By Ruichao Tang

Project Description

A simple web app that allows users to manage personal appointments. Visitors can book appointments with registered users. And the registered user have the access to the page that tracks confirmed and unconfirmed appointments.

User Personas

- **Owner:** Manages appointments, confirms or cancels bookings.
- **Guest:** Searches for a registered user and books an appointment.

User Stories

- As an **owner**, I want to view all appointments so that I can manage my schedule.
- As an **owner**, I want to confirm or cancel appointments so that I can control my availability.
- As a **guest**, I want to book an appointment so that I can schedule a appointment.
